

RE Rules & Regs/TCPA 1991/ CG Docket 02-278 -- I work for a teleservices firm and am concerned the proposed rule changes will limit my company's ability to operate, thus jobs will be lost. My job of 22 years is important to me. I believe you should focus efforts on enforcement of the current laws and identify those who are not in compliance. If these new rule changes go into effect, my company will need to make changes in how we do business to stay effective and competitive based on these proposed changes. We are a legitimate rule abiding company. Don't penalize us beyond our means.
